## BlackRock UK Special Situations D Acc (SEDOL: B3V1C06)

EAA Fund UK Flex-Cap Equity

As of 30/09/2021

GB00B3V1C060

#### **Fund Description**

Fund Manager(s): Roland Arnold since August 2012

BlackRock UK Special Situations is a UK equity fund that looks to deliver long term capital growth through investment in UK listed companies. The fund has a structural bias to companies outside of the FTSE 100 and will normally have at least 50% invested in medium and smaller companies as the manager believes that these companies are able to sustain superior growth over longer periods of time. The fund is managed by Roland Arnold who has been a co-manager on the fund since 2012 and was made sole manager in 2019. Arnold sits as part of the UK emerging companies team and has been at BlackRock for over 20 years. The investment approach is bottom up with company meetings playing a critical role in the process. The philosophy is focused on buying companies, not share prices, and therefore garnering a deep understanding of a company is key before any investment is made, while building strong relationships with company management is a major part of the process. The resulting portfolio will typically hold 60-80 high conviction positions and will have high active share and tracking error compared to the benchmark.
